

your care, your way

Have your say on the future of community health and care services

Public consultation open until Friday 30 October

We've talked to hundreds of people since January 2015 and we've used your feedback to develop some exciting proposals for how community health and care services should be organised in the future.

We're putting forward a number of different options so we've launched a public consultation to hear what YOU think should happen next.

How can you take part in the consultation

- Watch our short [interactive presentation](#)
- Complete the [your care, your way survey](#)
- Attend one of our [engagement events](#)
- Read the full [consultation document](#)

Spread the word

We want to make sure that as many people as possible have the chance to take part in this consultation but we can't do this without your help.

Please forward this email onto your family, your friends, your colleagues and your networks so that everyone can have their say about the way we provide health and care services in our local communities.

Host an event

If you are part of a group that could be affected by changes to health and care services in your area then we need your help.

Could you put some time aside at one of your next meetings to discuss the proposals together and complete the survey? We can provide all the materials you will need as long as you can provide us with some completed surveys.

Contact the team

If you have any questions or comments about the consultation then please take a look at our website or contact the team:
